## About me

### My Experience

Currently pursuing **B.Sc** third year with **Mathmatics** honers and learned coding as well. I have developing websites since 10th. My intrest in coding could't stop me to learn profession coding and now I have developed many Huge and awesome challenging Projects.

### My Skillset

I possess a sharp eye for detail, which I use to find even the smallest errors in code. I work well under pressure and can produce high-quality work in short periods of time.

In context with programming languages and tools I currently work in **React**, **Redux** and **JavaScript Mastery**. I am always open to accept new challenges and toos to improve my skills.

### My Goals

I am looking for an opportunity to work with a team that runs on clear communication. I want to align myself with a company I believe in and where I can create positive change. I am always looking to learn more and am open to taking on challenging projects.

### Hobbies

Gaming  
Photoshop  
YouTube Video  
Exploring Facts  
Exploring Internet

## My Projects

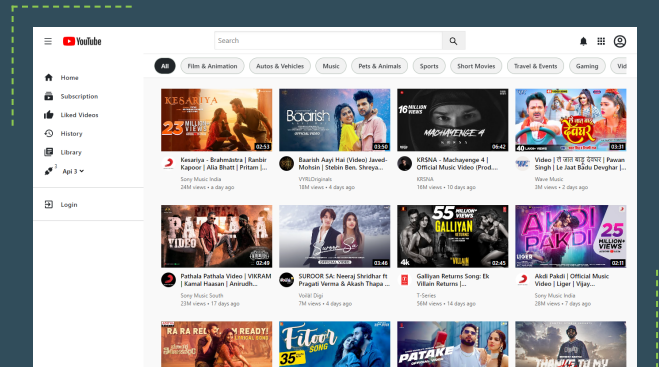

### React GYM Web App

Made this GYM Project with react, firebase and node js. In this Project. I implement and also learn pagination with react-router-dom and Array Methods (filter, sort and find)

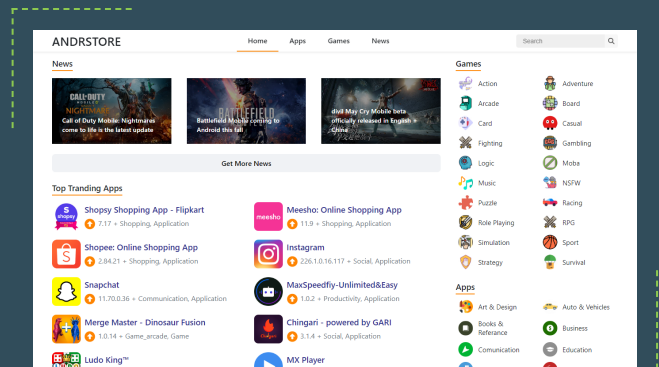

### YouTube Clone Project

YouTube Clone using React, Redux and Firebase. This project made with the help of YouTube Data API. and stored loaded data in redux store and serve overall the app.

### YouTube Clone Project

Made a Android App Store only using Html, CSS and JavaScript and this is fully dynamic with multipages

### Vega - Movie Project

I made a movie app named 'Vega Movie'. there are multiple features like search movie, pagination, movie rating, and reviews using 'TMBd Movie Api'
